Corrections and TB Series: Understanding Inmate Movement – Where Did They Go?
May 24, 2006 11 a.m. – 12:30 p.m. EST
In this first of a series of Corrections and TB webinars (telephone and computer conferencing), the discussion will focus on how tuberculosis can spread in environments where overcrowding and less than optimal ventilation systems may exist, specifically correctional systems. Listen to this presentation via your telephone and view the slides through your computer. Ask questions and participate in discussion following the program. More info...
